

Treatment Area 01

Treatment Area Name: Evans Creek

Infested acres: 2.3

Description: Located along Road 7920, in the southeast portion of the Snoqualmie District, near the Carbon River entrance to Mount Rainier National Park. Mostly second growth mixed deciduous and conifer forest that had been railroad logged in the early 1900s, with some old growth near the ridge tops. Active recreation use by visitors using Evans Creek ORV area.

5th Field Watershed: Carbon River HUC 1711001401

Existing Sites and Treatment Objectives

Species	NRIS ID	Site Name	Infested Acres	Objective	Potential Treatment Methods. Listed in order what would be used initially/primarily (aquatic glyphosate or aminopyralid will be used based on distance to water)
Tansy ragwort	05-LP-037	Rd 7920 Sec 8	0.8	Control	hand-pull, metsulfuron methyl, picloram, aminopyralid
Tansy ragwort	05-LP-038	Rd 7920 Sec 19	1.5	Control	hand-pull, metsulfuron methyl, picloram, aminopyralid

Treatment Area 02

Treatment Area Name: West Fork White River

Infested acres: 48.5

Description: Located along the Road 74 and 75 systems about 2 miles south of Greenwater, bordered by Huckleberry ridge to the east, Clearwater River to the west, and Mt. Rainier National Park to the south.

5th Field Watershed: Upper White River HUC 1711001403

Existing Sites and Treatment Objectives

Species	NRIS ID	Site Name	Infested Acres	Objective	Potential Treatment Methods. Listed in order what would be used initially/primarily (aquatic glyphosate or aminopyralid will be used based on distance to water)

Scotch broom	05-VW-065	Road 73/7305 junction	0.1	Control	hand-pull seedling/small plants, cut stump-glyphosate, triclopyr, aminopyralid

Treatment Area 05

Treatment Area Name: Ranger Creek

Infested acres: 21.1

Description: Within a mile of the White River/State Highway 410, centering on portions of the Road 7100 system, in the general vicinity of the Ranger Creek airstrip.

5th Field Watershed: Upper White River HUC 1711001403

Existing Sites and Treatment Objectives

Species	NRIS ID	Site Name	Infested Acres	Objective	Potential Treatment Methods. Listed in order what would be used initially/primarily (aquatic glyphosate or aminopyralid will be used based on distance to water)
Scotch broom	05-LP-089	Ranger Creek Airstrip	9.7	control	hand-pull seedling/small plants, cut stump-glyphosate, triclopyr, aminopyralid
Tansy ragwort	05-TF-007	Buck Creek camp	0.8	control	hand-pull, metsulfuron methyl, picloram, aminopyralid
spotted knapweed	05-TF-018	Ranger Creek Airstrip	10.4	control	hand-pull, aminopyralid, clopyralid, picloram, glyphosate
Bohemian knotweed	05-TF-025	Silver Springs Rec Residence #122	0.1	control	Glyphosate and Imazapyr
Tansy ragwort	05-TF-033	Silver Springs Rec Residence #86	0.1	control	hand-pull, metsulfuron methyl, picloram, aminopyralid

Treatment Area: 06**Treatment Area Name: Crystal Mountain Boulevard****Infested acres:** 0.1

Description: Crystal Mountain Boulevard, Road 7190. A small patch of Bull thistle in between parking lot F and D, along the road shoulder is mapped but in fact but the entire 6 mile boulevard has scattered infestations of Scotch broom and Canada thistle. The road is maintained by Pierce County, who holds the right-of-way. The base area also has infestations of oxeye daisy.

5th Field Watershed: Upper White River HUC 1711001403

Existing Sites and Treatment Objectives

Bohemian knotweed	06-KW-028	Rd 6300-310 spur	0.2	Control	glyphosate, imazapyr
Bohemian knotweed	06-KW-030	Rd 63, 3.3 mi east of Hwy 2	0.2	Control	glyphosate, imazapyr

Treatment Area: 20**Treatment Area Name: South Fork Skykomish River/Highway 2 Corridor****Infested acres:** 205.6**Description:** This treatment areas crosses several sub-watersheds and includes USFS lands within a couple of miles of US Highway 2, east of the town of Index and west of Deception Falls Picnic Area.**5th Field Watershed:** South Fork Skykomish River 1711000903, Tye River 1711000901

Existing Sites and Treatment Objectives

Species	NRIS ID	Site Name	Infested Acres	Objective	Potential Treatment Methods. Listed in order what would be used initially/primarily (aquatic glyphosate or aminopyralid will be used based on distance to water)
English ivy	06050600007	Lowe Creek Rd 6030 @ MP 0.3	0.8	Eradicate	hand-pull, glyphosate, triclopyr
Herb Robert	06050600071	Sky-Beckler Thin Unit 63	0.1	Control	hand-pull and glyphosate
Bull thistle	06050600072	Sky-Beckler Thin Unit 63	0.1	Control	dig/pull, aminopyralid, glyphosate
Herb Robert	06050600073	Sky-Beckler Thin Unit 63	0.1	Control	hand-pull and glyphosate
Scotch broom	06050600074	Sky-Beckler Thin Unit 63	0.1	Control	hand-pull seedling/small plants, cut stump-glyphosate, triclopyr, aminopyralid
smooth hawkweed	06-AR-084	Hwy 2; milepost 38-39	2.5	Control	aminopyralid, clopyralid
Meadow hawkweed	06-AR-085	Road 6066/6067	53.4	Contain	aminopyralid, clopyralid
Bohemian knotweed	06-BS-001	Hwy 2, milepost 52.5	0.5	Control	glyphosate, imazapyr
Bohemian knotweed	06-DK-001	Old Cascade Hwy, west of RR Track	0.2	Control	glyphosate, imazapyr
Orange hawkweed	06-DL-001	End of Thelma St	0.1	Control	aminopyralid, clopyralid
Bohemian knotweed	06-DL-002	Tye River	6.1	Control	glyphosate, imazapyr
Herb Robert	06-KW-001	Lowe creek Road	46.2	Contain	hand-pull and glyphosate
Orange hawkweed	06-KW-003	Sky Compound (revisit)	3.1	Control	aminopyralid, clopyralid
Bohemian knotweed	06-KW-004	Sky Compound (revisit)	3.1	Control	glyphosate, imazapyr
Bohemian knotweed	06-KW-005	Skykomish River	12.6	Control	glyphosate, imazapyr
Tansy ragwort	06-KW-006	BPA right of way	0.7	Control	hand-pull, metsulfuron methyl, picloram, aminopyralid
Orange hawkweed	06-KW-013	Rd 63, milepost 2.1	0.6	Control	aminopyralid, clopyralid
Bohemian knotweed	06-KW-015	Skykomish River, mile 48	1.3	Control	glyphosate, imazapyr
Bohemian knotweed	06-KW-016	Miller River	1.0	Control	glyphosate, imazapyr
Herb Robert	06-KW-023	Sky compound (revisit)	3.1	Control	hand-pull and glyphosate
Tansy ragwort	06-KW-029	Rd 6022, no- name spur	0.5	Control	hand-pull, metsulfuron methyl, picloram, aminopyralid

Species	NRIS ID	Site Name	Infested Acres	Objective	Potential Treatment Methods. Listed in order what would be used initially/primarily (aquatic glyphosate or aminopyralid will be used based on distance to water)
Bohemian knotweed	06-KW-031	Rd 6020, entry to Mt Index riversites	0.1	Control	glyphosate, imazapyr
Bohemian knotweed	06-KW-032	Rd 6020, jct w Hwy 2	0.6	Control	glyphosate, imazapyr
Tansy ragwort	06-KW-034	Rd 6020 powerline, 4 mi from Rd 63	0.1	Control	hand-pull, metsulfuron methyl, picloram, aminopyralid
Orange hawkweed	06-LP-019	Skykomish District office	2.0	Control	aminopyralid, clopyralid
Scotch broom	06-LP-031	Rd 6512-105 (Sky Forks sale)	1.4	Control	hand-pull seedling/small plants, cut stump-glyphosate, triclopyr, aminopyralid
Herb Robert	06-LP-034	Sky Forks timber sale	5.2	Control	hand-pull and glyphosate
Herb Robert	06-LP-036	Apex Mill	0.3	Control	hand-pull and glyphosate
Canada thistle	06-LP-037	Rd 6512-015 (Sky Forks sale)	11.1	Control	aminopyralid, clopyralid, glyphosate, chlorsulfuron
Herb Robert	06-SJ-008	Berschinski driveway	6.2	Control	hand-pull and glyphosate
Bohemian knotweed	06-SJ-009	Berschinski driveway	4.4	Control	glyphosate, imazapyr
Herb Robert	06-SJ-011	Hwy 2 stabilization milepost 46	0.1	Control	hand-pull and glyphosate
Herb Robert	06-SJ-012	Hwy 2 stabilization stream bridge	22.0	Contain	hand-pull and glyphosate
Herb Robert	06-SJ-013	Hwy 2 stabilization Tye River	0.1	Control	hand-pull and glyphosate
Bohemian knotweed	06-SS-050	Beckler Rd, 500' up	0.2	Control	glyphosate, imazapyr
Sulphur cinquefoil	06-SS-068	Beckler River Rd 6500	0.1	Eradicate	picloram, metsulfuron methyl, glyphosate, triclopyr
Herb Robert	06-TD-044	Baring; Rd 6028 milepost 0.5	0.1	Control	hand-pull and glyphosate
Herb Robert	06-TD-045	Miller river Rd 6410, ¼ mile up	0.1	Control	hand-pull and glyphosate
Bohemian knotweed	06-TD-046	Lake Serene Trail	0.6	Control	glyphosate, imazapyr

Species	NRIS ID	Site Name	Infested Acres	Objective	Potential Treatment Methods. Listed in order what would be used initially/primarily (aquatic glyphosate or aminopyralid will be used based on distance to water)
Bohemian knotweed	06-TF-001	Hwy 2, Rd 6500 jct (Sky Forks sale)	2.2	Control	glyphosate, imazapyr
Bohemian knotweed	06-TF-060	Money Creek campground	6.0	Control	glyphosate, imazapyr
Herb Robert	06-TF-061	Money Creek campground	6.0	Control	hand-pull and glyphosate
yellow archangel	06-TF-062	Skykomish District office	0.1	Eradicate	triclopyr, imazapyr, metsulfuron methyl, hand-pulling
Dalmatian toadflax	06-VW-081	Hwy 2 near Canyon Falls	0.1	Control	hand-pull small and new areas, chlorsulfuron, imazapic, picloram
giant knotweed	06-VW-082	Mt Index Rd 6020/10	0.3	Control	glyphosate, imazapyr

Treatment Area: 21

Treatment Area Name: Money Creek

Infested acres: 1.5

Description: Infestations of knotweed along Money Creek Road #6420

5th Field Watershed: South Fork Skykomish River 1711000903

Existing Sites and Treatment Objectives

Species	NRIS ID	Site Name	Infested Acres	Objective	Potential Treatment Methods. Listed in order what would be used initially/primarily (aquatic glyphosate or aminopyralid will be used based on distance to water)
Bohemian knotweed	06050600020	Money Creek Rd 6420, 2.3 miles east of Lake Elizabeth	0.8	Control	glyphosate, imazapyr
Bohemian knotweed	06-RB-001	Rd 6420, milepost 4.3	0.7	Control	glyphosate, imazapyr

Treatment Area: 22

Treatment Area Name: Sultan River

Infested acres: 2.0

Description: Isolated parcels of USFS lands surrounded by DNR lands along the Sultan River, west of Spada Lake.

5th Field Watershed: Sultan River 1711000905

Existing Sites and Treatment Objectives

Species	NRIS ID	Site Name	Infested Acres	Objective	Potential Treatment Methods. Listed in order what would be used initially/primarily (aquatic glyphosate or aminopyralid will be used based on distance to water)
Reed canarygrass	06050600013	Jackson relicensing, Stringer bridge	0.1	Control	sulfometuron methyl, glyphosate, imazapyr, sethoxydim, mowing
Cutleaf blackberry	06050600014	Jackson relicensing, Stringer bridge	0.1	Control	hand-pull/dig small or new infestations, glyphosate, triclopyr
Canada thistle	06050600015	Jackson relicensing, Stringer bridge	0.1	Control	aminopyralid, clopyralid, glyphosate, chlorsulfuron
Herb Robert	06050600016	Jackson relicensing, Stringer bridge	0.1	Control	hand-pull and glyphosate
Bull thistle	06050600017	Jackson relicensing, Stringer bridge	0.1	Control	dig/pull, aminopyralid, glyphosate
English holly	06050600018	Jackson relicensing, Stringer bridge	0.0 monitor only	Eradicate	hand-pull/dig, frill or cut-stump-glyphosate
Himalayan blackberry	06-AR-073	Jackson relicensing Road 6122, second clearing	0.1	Control	hand-pull/dig small or new infestations, glyphosate, triclopyr
Canada thistle	06-AR-074	Jackson relicensing Road 6122, second clearing	0.1	Control	aminopyralid, clopyralid, glyphosate, chlorsulfuron
Oxeye daisy	06-AR-076	Jackson relicensing Road 6122, second clearing	0.6	Control	aminopyralid, clopyralid, hand-pulling small areas
Canada thistle	06-AR-079	Jackson relicensing Road 6122, first clearing	0.1	Control	aminopyralid, clopyralid, glyphosate, chlorsulfuron
Scotch broom	06-AR-082	Jackson relicensing Road 6122, first clearing	0.1	Control	hand-pull seedling/small plants, cut stump-glyphosate, triclopyr, aminopyralid
Cutleaf blackberry	06-AR-083	Jackson relicensing Road 6122, first clearing	0.2	Control	hand-pull/dig small or new infestations, glyphosate, triclopyr

Species	NRIS ID	Site Name	Infested Acres	Objective	Potential Treatment Methods. Listed in order what would be used initially/primarily (aquatic glyphosate or aminopyralid will be used based on distance to water)
Canada thistle	06-AR-088	Jackson relicensing, Rd 6122 river access trail	0.1	Control	aminopyralid, clopyralid, glyphosate, chlorsulfuron
Cutleaf blackberry	06-AR-089	Jackson relicensing, Rd 6122 river access trail	0.1	Control	hand-pull/dig small or new infestations, glyphosate, triclopyr

Treatment Area: 23

Treatment Area Name: South Fork Stillaguamish River

Infested acres: 251.7

Description: Most of the sites are located along the shoulders of the Mountain Loop Highway, from Granite Falls to Barlow Pass, except for another area of concern in the upper portion of Meadow Mountain Road #41.

5th Field Watershed: South Fork Stillaguamish River 1711000802

Existing Sites and Treatment Objectives

Species	NRIS ID	Site Name	Infested Acres	Objective	Potential Treatment Methods. Listed in order what would be used initially/primarily (aquatic glyphosate or aminopyralid will be used based on distance to water)
common hawkweed	06050200 044	Buck Creek Br (Mt. Loop Hwy)	0.4	Control	aminopyralid, clopyralid

Bohemian knotweed	02-LP-018	The Sinkhole	0.6	Control	glyphosate, imazapyr
Herb Robert	02-LP-057	River Road 4037	0.1	Control	hand-pull and glyphosate

Treatment Area: 24

Treatment Area Name: Falls Creek

Infested acres: 0.3

Description: Treatment Area 24 is within the Falls Creek-Sauk River 6th field watershed, north of the Whitechuck River and south of Bedal.

5th Field Watershed: Upper Sauk River 1711000601

Existing Sites and Treatment Objectives

Species	NRIS ID	Site Name	Infested Acres	Objective	Potential Treatment Methods. Listed in order what would be used initially/primarily (aquatic glyphosate or aminopyralid will be used based on distance to water)
Scotch broom	02-AR-041	Road 2083 @ MP 0.5	0.1	eradicate	hand-pull seedling/small plants, cut stump-glyphosate, triclopyr, aminopyralid
Bohemian knotweed	02-LB-005	Sauk Floodplain (TNC patch A141)	0.1	control	glyphosate, imazapyr
Spotted knapweed	02-LP-053	Road 2083	0.1	eradicate	hand-pull, aminopyralid, clopyralid, picloram, glyphosate

Treatment Area: 25

Treatment Area Name: Sauk-Whitechuck confluence

Infested acres: 0.1

Description: In the floodplain of the confluence of the Sauk and Whitechuck rivers.

5th Field Watershed: Upper Sauk River 1711000601

Existing Sites and Treatment Objectives

Species	NRIS ID	Site Name	Infested Acres	Objective	Potential Treatment Methods. Listed in order what would be used initially/primarily (aquatic glyphosate or aminopyralid will be used based on distance to water)
Bohemian knotweed	02-LB-008	Road 2200-013	0.1	control	glyphosate, imazapyr

Treatment Area: 26

Treatment Area Name: Whitechuck River Road #23

Infested acres: 3.2

Description: Whitechuck River Road #23

5th Field Watershed: Upper Sauk River 1711000601

Existing Sites and Treatment Objectives

Species	NRIS ID	Site Name	Infested Acres	Objective	Potential Treatment Methods. Listed in order what would be used initially/primarily (aquatic glyphosate or aminopyralid will be used based on distance to water)
Herb Robert	06050200043	White Chuck Rd 23 from MP 0 to 3.4	2.3	Control	hand-pull and glyphosate
Orange hawkweed	02-AR-018	White Chuck Rd #23	0.5	Control	aminopyralid, clopyralid
Tansy ragwort	02-KW-012	Rd 23	0.1	Control	hand-pull, metsulfuron methyl, picloram, aminopyralid
Herb Robert	02-KW-013	Rd 2311	0.3	Control	hand-pull and glyphosate

Treatment Area: 27**Treatment Area Name: Darrington South****Infested acres:** 625.5

Description: This treatment area includes portions of Highway 20, Roads 2060, 2070, 2071-011, 2072, 2072-011, 2073-012, Road 22 and the southernmost portion of Road 24. Most of the sites are located along the shoulders of the Mountain Loop Highway, from Barlow Pass to Darrington.

5th Field Watershed: Includes both Upper Sauk River 1711000601 and Lower Sauk River 1711000604.

Existing Sites and Treatment Objectives

Species	NRIS ID	Site Name	Infested Acres	Objective	Potential Treatment Methods. Listed in order what would be used initially/primarily (aquatic glyphosate or aminopyralid will be used based on distance to water)
Orange hawkweed	02-AR-002	Roads 2070, 2073	0.3	Control	aminopyralid, clopyralid
Orange hawkweed	02-AR-005	Road 2060	0.1	Control	aminopyralid, clopyralid
Herb Robert	02-AR-026	Gold Hill ERFO	2.0	Control	hand-pull and glyphosate
Bohemian knotweed	02-KW-008	Gold Hill Road 24	0.1	Control	glyphosate, imazapyr

Orange hawkweed	02-AR-044	Road 2430 past the road end	0.1	Control	aminopyralid, clopyralid

Species	NRIS ID	Site Name	Infested Acres	Objective	Potential Treatment Methods. Listed in order what would be used initially/primarily (aquatic glyphosate or aminopyralid will be used based on distance to water)
Meadow hawkweed	02-AR-045	Road 2430 past the road end	0.1	Control	aminopyralid, clopyralid
Canada thistle	02-AR-046	Road 2430 past the road end	2.0	Control	aminopyralid, clopyralid, glyphosate, chlorsulfuron

Treatment Area: 32

Treatment Area Name: Circle Creek-Suiattle River

Infested acres: 7.5

Description: primarily in Green Mountain Horse pasture and nearby roads near the Suiattle River between Black Creek and Downey Creek.

5th Field Watershed: Lower Suiattle River 1711000603

Existing Sites and Treatment Objectives

Species	NRIS ID	Site Name	Infested Acres	Objective	Potential Treatment Methods. Listed in order what would be used initially/primarily (aquatic glyphosate or aminopyralid will be used based on distance to water)
Orange hawkweed	02-AR-001	Harriet Creek	0.1	Control	aminopyralid, clopyralid
Herb Robert	02-AR-024	Huckleberry Mountain Trail	0.7	Control	hand-pull and glyphosate
Orange hawkweed	02-KW-003	Suiattle Guard Station	0.1	Control	aminopyralid, clopyralid
Scotch broom	02-KW-011	Road 2680	0.1	Control	hand-pull seedling/small plants, cut stump-glyphosate, triclopyr, aminopyralid
Canada thistle	02-LP-028	Green Mountain horse Pasture	6.5	Control	aminopyralid, clopyralid, glyphosate, chlorsulfuron

Treatment Area: 33

Treatment Area Name: Big Creek-Tenas Creek

Infested acres: 17.8

Description: Includes both the Big Creek and Tenas creek sub-watersheds. On road systems near the northernmost portion of the Suiattle River, from near Grade Creek in the north to near All Creek in the south.

5th Field Watershed: Lower Suiattle River 1711000603

bull thistle	01-LP-060	Bkr Hydro:Bkr Lk Dam Road	0.1	Control	dig/pull, aminopyralid, glyphosate
bull thistle	01-LP-061	Bkr Hydro:fish tank on Bkr Lk Dam Rd	0.5	Control	dig/pull, aminopyralid, glyphosate
bull thistle	01-LP-062	Bkr Hydro:Sulphur Creek	0.1	Control	dig/pull, aminopyralid, glyphosate
Herb Robert	01-LP-063	Bkr Hydro:Welker Ck by campground	0.1	Control	hand-pull and glyphosate
Herb Robert	01-LP-064	Bkr Hydro:Upper Bkr Dam	0.2	Control	hand-pull and glyphosate
Herb Robert	01-LP-065	Bkr Hydro:Bkr Dam Boat Launch	0.1	Control	hand-pull and glyphosate
Canada thistle	01-LP-066	Bkr Hydro:Bkr River inlet	0.1	Control	aminopyralid, clopyralid, glyphosate, chlorsulfuron
Canada thistle	01-LP-067	Bkr Hydro:Bkr Lk Dam Road	0.1	Control	aminopyralid, clopyralid, glyphosate, chlorsulfuron

Treatment Area: 44

Treatment Area Name: Glacier Creek Road 39

Infested acres: 1.1

Description: Scattered in over the length of Glacier Creek Road 39

5th Field Watershed: Upper North Fork Nooksack 1711000401

Existing Sites and Treatment Objectives

Species	NRIS ID	Site Name	Infested Acres	Objective	Potential Treatment Methods. Listed in order what would be used initially/primarily (aquatic glyphosate or aminopyralid will be used based on distance to water)
Canada thistle	01-AR-011	Glacier Creek Rd 39	1.1	Control	aminopyralid, clopyralid, glyphosate, chlorsulfuron

Treatment Area: 45**Treatment Area Name: Mt. Baker Highway 542****Infested acres:** 31.8**Description:** On or near the highway, from the town of Glacier east to the WSDOT “Shuksan” maintenance building.**5th Field Watershed:** Upper North Fork Nooksack 1711000401

Existing Sites and Treatment Objectives

Species	NRIS ID	Site Name	Infested Acres	Objective	Potential Treatment Methods. Listed in order what would be used initially/primarily (aquatic glyphosate or aminopyralid will be used based on distance to water)
Herb Robert	06050100009	Deadhorse Rd pit @ MP 1.5	1.2	Eradicate	hand-pull and glyphosate
orange hawkweed	06050100014	SR 542 across from Glacier PSC	0.1	Eradicate	aminopyralid, clopyralid
yellow archangel	06050100020	Glacier FS house	0.1	Eradicate	triclopyr, imazapyr, metsulfuron methyl, hand-pulling
hedge false bindweed	06050100022	Glacier FS house	0.1	Eradicate	glyphosate, triclopyr
bull thistle	06050100026	Deadhorse Rd pit @ MP 1.5	0.3	Eradicate	dig/pull, aminopyralid, glyphosate
Herb Robert	01-AR-001	Douglas Fir CG	0.2	Control	hand-pull and glyphosate
Herb Robert	01-AR-002	Excelsior CG intersection	0.1	Control	hand-pull and glyphosate
Japanese sweet coltsfoot	01-AR-004	Glacier Rec Residence	0.1	Eradicate	dig, glyphosate
Herb Robert	01-AR-006	Excelsior CG	0.1	Control	hand-pull and glyphosate
orange hawkweed	01-AR-008	Glacier Ck Rd 39 MP 0.4	0.1	Eradicate	aminopyralid, clopyralid
Bohemian knotweed	01-AR-054	Hwy 542/3060 jct.	0.1	Eradicate	glyphosate, imazapyr
Japanese sweet coltsfoot	01-AR-055	Glacier Public Service Center	0.1	Eradicate	dig, glyphosate
Herb Robert	01-AR-056	Glacier Public Service Center	0.1	Control	hand-pull and glyphosate
orange hawkweed	01-AR-063	Mt Baker Hwy, mile 35.3	0.1	Eradicate	aminopyralid, clopyralid
Bohemian knotweed	01-AR-064	USFS residence near Glacier	0.1	Eradicate	glyphosate, imazapyr

Species	NRIS ID	Site Name	Infested Acres	Objective	Potential Treatment Methods. Listed in order what would be used initially/primarily (aquatic glyphosate or aminopyralid will be used based on distance to water)
Bohemian knotweed	01-AR-065	North Fork Nooksack River	10.4	Eradicate	glyphosate, imazapyr
English ivy	01-AR-066	Glacier FS house	0.1	Eradicate	hand-pull, glyphosate, triclopyr
Common periwinkle	01-AR-067	Glacier FS house	0.1	Eradicate	hand-pull, glyphosate
Himalayan blackberry	01-AR-070	Glacier FS house	0.1	Eradicate	hand-pull/dig small or new infestations, glyphosate, triclopyr
Bohemian knotweed	01-AR-072	Glacier FS house, east	0.1	Eradicate	glyphosate, imazapyr
meadow hawkweed	01-AR-075	Miners Quarry (Rd 3700-011 pit)	0.1	Eradicate	aminopyralid, clopyralid
spotted knapweed	01-AR-076	Miners Quarry (Rd 3700-011 pit)	0.2	Eradicate	hand-pull, aminopyralid, clopyralid, triclopyr, glyphosate
Tansy ragwort	01-LP-001	Mt Baker Hwy	15.7	Control	hand-pull, metsulfuron methyl, picloram, aminopyralid
Bohemian knotweed	01-LP-014	Mt Bkr Hwy near Barometer Ck (revisit)	0.1	Eradicate	glyphosate, imazapyr
Queen Anne's lace	01-LP-068	Miner's Quarry	1.7	Eradicate	metsulfuron methyl, chloresulfuron, triclopyr
bull thistle	01-LP-069	Miner's Quarry	0.2	Eradicate	dig/pull, aminopyralid, glyphosate
bull thistle	01-LP-070	Shuksan Pit	0.1	Eradicate	dig/pull, aminopyralid, glyphosate

Treatment Area: 46

Treatment Area Name: Canyon Creek

Infested acres: 1.6

Description: Sites are on Canyon Creek Road 31 and Canyon Ridge Road 3140.

5th Field Watershed: Upper North Fork Nooksack 1711000401

Existing Sites and Treatment Objectives

Species	NRIS ID	Site Name	Infested Acres	Objective	Potential Treatment Methods. Listed in order what would be used initially/primarily (aquatic glyphosate or aminopyralid will be used based on distance to water)
Canada thistle	01-AR-057	Canyon Creek Rd 31	0.8	Control	aminopyralid, clopyralid, glyphosate, chlorsulfuron
Orange hawkweed	01-LP-023	Canyon Ck Rd 3140	0.8	Control	aminopyralid, clopyralid
